

Juan Matus

Frontend Developer

Managua, Nicaragua

PROFESSIONAL SUMMARY

I like delivering great products and giving people the best experience possible. I mostly used ReactJS and Typescript in my past positions. I also have experience with other Javascript libraries and frameworks.

EXPERIENCE

Engineering Team Lead July 2022 - present

Nicasource | Outsourcing Company

- Team of 4 developers - Identified and developed career paths for the team by encouraging their areas for growth and improvement through feedback and regular 1:1s.
- Built new features and refactored legacy code focusing on testability and extensibility.
- Ensured with the team that technical decisions supported quality goals, performance, reliability, availability, and security - and communicate that decisions with the client.
